

CCHS – How to Log into.....

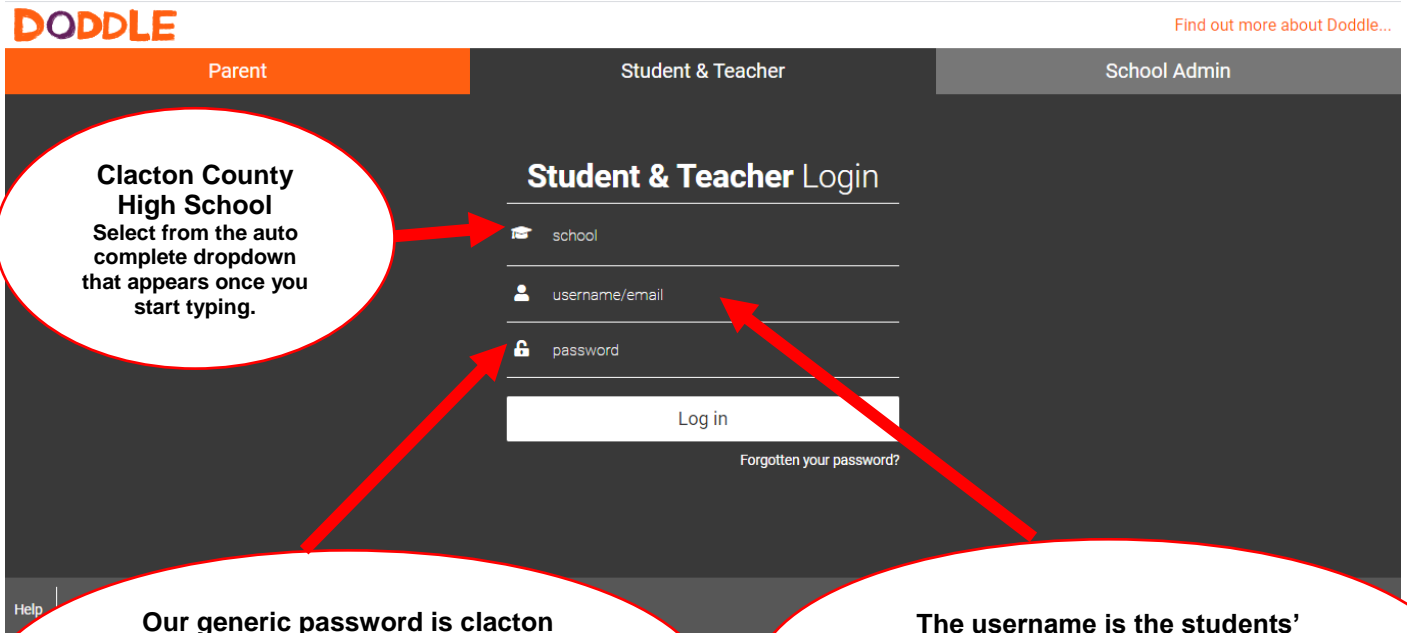

Doddle

The Doddle microsite is provided by our Science Department which can be accessed from both school and home. It offers our students a fully interactive online learning and homework resource for all year groups.

CCHS students are able to log into Doddle by using the credentials listed below:

Username: Each student's own network login – YYsurnamefirstinitial@countyhigh.org.uk
(YY is the last two digits of the year that they joined or would have joined when they were in Year 7)

Our generic password is clacton
This can be changed to a personalised password.
(Students can have this reset by our IT Technicians if they forget it.)

The username is the students' CCHS network username.
The username they use to login to the school computers with @countyhigh.org.uk added

Doddle provides a number of 'Quick Start' guides to assist Students and Parents when using the site. Click [HERE](#) to go to there.

Find handy tips and practical advice on getting the most out of Doddle.
